

# Want to Learn BodyTalk?

## BodyTalk is WholeHealthCare™

BodyTalk addresses the “whole person.” This means that no aspect of the human psyche can be overlooked, be it emotional, physical, or environmental. BodyTalk finds the underlying causes of illness by addressing the whole-person and their whole-story.

With Holly Steflik, M.Ed., Certified BodyTalk Instructor, Craniosacral Fascial Therapist/Instructor

This course provides a comprehensive introduction to the BodyTalk System and presents many powerful consciousness-based healing techniques that address a wide variety of symptoms on all levels of the body and mind. This course presents discussions on both scientific and philosophical aspects of health, as well as a hands-on practical application of the BodyTalk Fundamentals techniques.

*CEU's for Acupuncturists (NCCAOM), Massage Therapists (NCBTMB), Social Workers (NASW), and Nurses (AHNA).*

## BodyTalk Fundamentals Seminar

April 19th - 22nd, 2018 9am – 6pm
